

41. CITY

Identifies the city, village, township, etc. of the billing address associated with the billing name.

USAGE: This field is conditional.

Required when the FBI field is "D," otherwise optional.

DATA CHARACTERISTICS: 25 alpha characters.

EXAMPLE:

L	I	V	I	N	G	S	T	O	N																
---	---	---	---	---	---	---	---	---	---	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--	--

42. STATE - State/Province

Identifies the two character postal code for the state/province of the billing address associated with the billing name.

USAGE: This field is conditional.

Required when the FBI field is "D," otherwise optional.

DATA CHARACTERISTICS: 2 alpha characters.

EXAMPLE:

N	J
---	---

43. ZIP CODE

Identifies the zip code or postal code of the billing address associated with the billing name.

USAGE: This field is conditional.

Required when the FBI field is "D," otherwise optional.

DATA CHARACTERISTICS: 10 alphanumeric characters.

EXAMPLES:

0	7	0	3	9					
0	8	8	5	4	-	1	2	3	4
M	5	A		1	X	7			

44. BILLCON - BILLING CONTACT

Identifies the name of the person or office to be contacted on end user final billing matters.

USAGE: This field is conditional.

Required when the FBI field is populated and/or this entry is different from the BILLNM field, otherwise optional

DATA CHARACTERISTICS: 15 alphanumeric characters.

EXAMPLE:

J	A	N	E		T		D	O	E					
---	---	---	---	--	---	--	---	---	---	--	--	--	--	--

45. TEL NO - Telephone Number

Telephone number of the billing contact.

USAGE: This field is conditional.

Required when the BILLCON field is populated, otherwise optional.

DATA CHARACTERISTICS: 17 numeric characters. (including 3 preprinted hyphens)

EXAMPLE:

2	0	1	-	5	5	5	-	3	4	0	0	-	2	2	2	
---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	--

46. SSN - Social Security Number

Identifies the social security number of the end user in the BILLNM field.

USAGE: This field is **NOT APPLICABLE** in BellSouth.

Disconnect Information

47. REF NUM - Reference Number

Identifies the first line or trunk as a unique number and each additional line or trunk segment as a unique number. Once generated, it cannot be changed and is retained through completion of the request. The values are to be assigned consecutively and must be unique throughout the request at the PON level.

USAGE: This field is conditional.

Required when the DISC # field is populated, otherwise prohibited.

DATA CHARACTERISTICS: 4 numeric characters.

EXAMPLE:

0	0	2	3
---	---	---	---

48. DISC # - Disconnect Telephone Number

Identifies the end user telephone number to be disconnected.

USAGE: This field is optional.

DATA CHARACTERISTICS: 12 numeric characters (including 2 preprinted hyphens).

EXAMPLE:

2	0	1	-	6	9	9	-	1	2	3	4
---	---	---	---	---	---	---	---	---	---	---	---

49. TER - Terminal Number

Identifies a non-lead line in a multi-line hunt group. This entry may represent the maintenance number assigned to a member of a multi-line hunt group.

USAGE: This field is optional.

DATA CHARACTERISTICS: 8 alphanumeric characters.

EXAMPLES:

0	0	0	5				
7	1	8	-	1	0	0	0

50. TC OPT - Transfer of Call Options

Identifies the type of transfer of call option requested by the end user for the disconnected telephone number when the standard intercept report is not desirable. Standard intercept will automatically apply when this field is not populated.

The following is the **Standard Intercept Report**: "The number you have reached has been disconnected".

USAGE: This field is optional.

DATA CHARACTERISTICS: 3 alphanumeric characters.

VALID ENTRIES:	Custom Code Identifier	Intercept Report
	TC	The number you have reached XXX-XXXX has been changed. The new number is XXX-XXXX.

EXAMPLES:

T	C	
---	---	--

51. TC TO - Transfer of Calls To

Identifies the telephone number to which calls are to be referred.

USAGE: This field is conditional.

Required when the TC OPT field entry is "TC", otherwise prohibited.

DATA CHARACTERISTICS: 12 numeric characters. (including 2 preprinted hyphens)

EXAMPLE:

2	0	1	-	6	9	9	-	1	2	3	4
---	---	---	---	---	---	---	---	---	---	---	---

52. TC PER - Transfer of Calls Period

Indicates the requested date that the transfer of calls, specified in the TC TO field, is to be removed and the standard recorded announcement is to be provided. When the standard period of transfer is acceptable, the field is to be left blank. Transfer of calls period may be reduced due to a shortage of numbers or the number is specifically requested by another client.

Type of Service	Standard Period for Transfer of Calls
Residence	3 months
Business	12 months or the life of the directory

USAGE: This field is conditional.

Optional when the TC TO field is populated, otherwise prohibited.

DATA CHARACTERISTICS: 10 alphanumeric characters. (including 2 hyphens)

VALID ENTRIES: Two Digit Month (01-12))
Two Digit Day (01-31)
Two Digit Century (00-99)
Two Digit Year (00-99)

EXAMPLES: $\begin{array}{|c|c|c|c|c|c|c|c|c|c|} \hline 0 & 8 & - & 1 & 0 & - & 1 & 9 & 9 & 7 \\ \hline \end{array}$

53. REMARKS

Identifies a free flowing field which can be used to expand upon and clarify other data on this form.

USAGE: This field is optional.

DATA CHARACTERISTICS: 160 alphanumeric characters.

[illegible]

ALPHABETIC/NUMERIC CROSS REFERENCE GLOSSARY END USER INFORMATION FORM

The following table is an alphanumeric cross-reference glossary of the EU Form fields.

	Field Abbreviation	Field #	Field Name

DIRECTORY LISTING REQUEST (DLR) FORM

Description

Information required for ordering listings is provided in the various fields contained within the DLR Form and provides the administrative and listing information associated with a customer's request. The Directory Listing Request can be associated with a Local Service Request form (LSR) and the End User form (EU) or, where appropriate may be submitted as a "stand alone" request.

The Administrative Section contains information pertaining to the service being ordered such as: purchase order number, version number, etc. Account telephone number and account number are also included in this section.

The Stand Alone Request Section should only be completed when the end user is an existing CLEC customer and only directory listing changes are requested. LSR and EU forms are not required when this section is completed and only Directory Listing changes are being made to existing CLEC accounts.

The Directory Delivery Section contains information pertaining to the delivery addresses and associated delivery information

The Listing Information Section contains listing specific details necessary for the processing of the request such as advance to directory, listing sequence, degree of indention, etc.

When no listing changes are needed and the Activity Code of "V" is selected on the LSR for (Conversion of Service to a new Local Service Provider, as specified), the Directory Listing Form is not required

Administrative Section

PON - Purchase Order Number

Identifies the customer's unique purchase order or requisition number that authorizes the issuance of this request or supplement.

VER - Version Identification

Identifies the customer's version number. Any reissuance can use this entry to uniquely identify the form from any other version.

Each reissuance (supplement) must be populated with a sequential number one digit higher than the preceding supplement for this PON. The highest populated number in this field indicates the latest supplement.

AN - Account Number

Identifies the main account number assigned by the new service provider.

ATN - Account Telephone Number

Identifies the account telephone number assigned by the new service provider.

Page ____ of ____

Identifies the page number and total number of pages contained in this request.

Stand Alone Request Section

Date

Identifies the date this request is submitted.

CLEC Name

Identifies the Competitive Local Exchange Carrier name.

Telephone Number

Identifies the CLEC telephone number.

Fax #

Identifies the CLEC fax number.

Initiator Identification

Identifies the CLEC's representative who originated this request.

Initiator Tel Number

Identifies the telephone number of the initiator.

Billing Account Number (BAN)

Identifies the billing account to which the recurring and non-recurring charges for this request will be billed.

Type of Service

Identifies the end user account as business, residence or government.

Select the appropriate block to indicate the end user's type of service.

- **Business**
- **Residence**
- **Government**

Desired Listing Due Date

Identifies the customer's desired due date for the listing.

End User Name

Identifies the name of the end user. The name in this field is not intended to be used for Directory Services.

End User Address

Identifies the street address of the end user location.

End User Account Number

Identifies the end user existing account number or existing account telephone number.

Directory Delivery Section

Delivery Name

Identifies the name of the end user for directory deliveries.

Required when the DELIVERY ADDRESS field is populated.

Delivery Address

Identifies the directory delivery address for the end user.

Provide address information here only if delivery address is different from the end user address indicated in the Stand Alone section on this form or on the END USER FORM.

White / Yellow Page Delivery

The end user will automatically receive both white and yellow page directories for the end user.

Annual Qty (White/Yellow)

Identifies the quantity of local white and yellow page directories to be delivered on an annual delivery basis.

Residential end users are entitled to one to three (1-3) local directories per account.
Business end users are entitled to one (1) directory per access line.

If the end user requests additional local directories on a "Standing Order" basis, enter number required here.

Interim Qty

Identifies an end user request for additional or replacement local directories at the time of the Local Service Request. If no number is shown, the end user will not receive additional directories at the conversion of service. However, the end user will be placed on the normal annual delivery schedule.

Listing Information Section

Advance Listing to Directory (AVL)

If the end user service will be effective after Business Office Close (BOC - relating to the publisher's closing of directory books) but they have an urgent need to appear in the directory, indicate here. There is a limited window (a few days) after BOC when listings can be "advanced" to the book.

Correct Listing

Indicate if this request is to correct a listing.

Ref Num - Reference Number

Identifies the first listing as a unique number and each additional listing segment as a unique number.

Must be unique at the PON level.

ACT - Activity

Identifies the activity involved for the listing.

VALID ENTRIES: A = New Listing and/or Account
D = Delete Listing

When changing an existing CLEC listing, both "A" and "D" activity entries are required.

Listing Order

Used to show the desired sequence for a caption listing. An alpha character represents the first (main) listing, i.e., 'A' is the first listing an end user wants. Numbers refer to the sequence of the listings to follow the main listing.

EXAMPLE: A1 Smith Hardware Stores, Inc.
A2 Branch Stores

If the listing is a 'straight line' listing, with only one line of customer information (name, street address, city and number), no entry is required in this section.

Caption Indent Level

Indicates the amount of indention for a caption listing.

VALID ENTRIES: 0 = Left Hand Justification (No Indent)
 1 = 1 Level of Indent (1 Space to the Right)
 2 = 2 Levels of Indent (2 Spaces to the Right)
 3 = 3 Levels of Indent (3 Spaces to the Right)

EXAMPLE:

Listing Order	Caption Indent Level	Book Appearance
A1	0	Smith Hardware Stores, Inc.
A2	1	Branch Stores
A3	2	1416 Main Street.....111-1111
A4	2	182 Broxton Dr.....222-2222
A5	1	Billing.....333-3333
A6	1	Home Delivery.....444-4444

If the listing is a 'straight line' listing, with only one line of customer information (name, street address, city and number), no entry is required in this section.

Telephone Number

Identifies the telephone number for the listing request.

List the end user numbers, as appropriate, to associate them with the correct lines on the end user listing.

Listing Type

Identifies the type of listing requested.. The designation may be different for different numbers in the caption listing.

Code	Description
LN	Listed - The Listed name is in the printed directory and in directory assistance operator records. One listing is provided without charge for each non-hunting access line telephone number.
NL	Non-Listed - The listing does not appear in the printed directory but is available through directory assistance.
NP	Non-Published - The listing is not in the printed directory and is not available through directory assistance.
AML1	Additional Main Listing 1 - A free listing available to subscribers of RingMaster service. USOC DRS1X
AML 2	Additional Main Listing 2 - A free listing available to subscribers of RingMaster II service. USOC DRS2X
AL	Additional Listing Residence - This listing provides telephone numbers under other names for residence service.
XL	Additional Listing Business - This listing provides telephone numbers under other corporations, firms, or personal names for business.
AC	Alternate Call Listing - A listing with descriptive text providing a number to receive calls when the primary number does not answer or during specific time periods.
AC	Night, Sunday and Holiday - A listing providing a number to receive calls at night and on Sundays and holidays.
AC	Indented under Night, Sunday and Holiday - A listing that is indented under a Night, Sunday and Holiday listing.
ASL	Answering Service Listing - A listing for clients of Telephone Answering Service Providers (TAS).
CR	Cross Reference Listing - A listing which refers directory users from one listing to another (i.e., from one name to another name or from one listing to another listing alphabetized differently in the directory.)
DB	*Designer Bold - Name, address, and telephone number appear in bold type.
DBP	*Designer Bold Plus - Name, address, and telephone number appear in bold type plus ruled lines above and below listing.
DS	*Designer Script - Name, address, and telephone number appear in cursive (script) type.
DSP	*Designer Script Plus - Name, address, and telephone number appear in cursive (script) type plus ruled lines above and below listing.
DL	*Designer Extra Line Standard - Allows information to help identify the end user listing or simply to express themselves in standard type
DLB	*Designer Extra Line Bold - Allows information to help identify the end user listing or simply to express themselves in bold type
DLS	*Designer Extra Line Script - Allows information to help identify the end user listing or simply to express themselves in cursive (script) type
FL	Foreign Listing - This listing provides for customers who request to be listed in directories of calling areas other than their own. Requires an entry in the Foreign/Secondary Directory Name field.

Code	Description
FL	Foreign Listing (free) - Free foreign listings for subscribers within certain exchange border areas of the same local calling area. Available when a foreign listing is needed for better identification in order to facilitate the completion of calls.
FAC	Foreign Alternate Call - An Alternate Call Listing in a foreign directory.**
FCR	Foreign Cross Reference - A Cross Reference Listing in a foreign directory.**
FSPL	Foreign Special Listing - A Special Text Listing in a foreign directory.
SPL	Special Text Directory Listing - Listings with phrases providing narrative description and dialing information or instructions (i.e., directing incoming calls after hours and during specific time periods.) (SPL listings must always be indented.)

* See "Designer Listings" on the following page for additional information .

** Requires an entry in the foreign/secondary name field.

Note 1: One Listing Type code is used per listing.

Note 2: When a designer listing is used, other Listing Type codes such as LN, AL, AML, and AC are not used.

Note 3: DB, DBP, DS, DSP, DL, DLB, and DLS are ordered individually.

Note 4: FL, FAC, FSPL and FCR are ordered individually.

Designer Listings

Residential end users may order directory designer listings as shown below. ***Designer listings are not available for business listings.*** Designer listings can only be selected when this form is being used to submit a residential listing request.

Font Type	Example
BOLD - Name, Address & Telephone Number appear in bold type.	Johnson Anthony 437 Acres Dr.....555-0699
BOLD PLUS - Name, Address & Telephone Number appear in bold type plus ruled lines above and below the listing.	Johnson Anthony 437 Acres Dr.....555-0699
<i>Script</i> - Name, Address & Telephone Number appear in cursive (script) type.	<i>Johnston Belinda</i> <i>123 Affinity Dr.....555-3906</i>
<i>Script Plus</i> - Name, Address & Telephone Number appear in cursive (script) type plus ruled lines above and below the listing.	<i>Johnston Belinda</i> <i>123 Affinity Dr.....555-3906</i>
Extra Line - Allows information to help identify the end user listing or simply to express themselves in standard type.	Johnston Gary Freelance Photographer 4216 Marais.....555-6529
BOLD Extra Line - Allows information to help identify the end user listing or simply to express themselves in bold type.	Aversion Jamie & Joan Square Dancers Owner of J & J Antiques 54 Oak Av.555-9974
Script Extra Line - Allows information to help identify the end user listing or simply to express themselves in cursive (script) type.	<i>Davis William M</i> <i>Owner of Davis Contractors</i> <i>399 Ivy Rd 30233....555-1174</i>

Listed Name

This section is used to show the listing EXACTLY as the end user desires for it to appear in the directory. When changing an established listing, provide the complete listing to insure the listing will be changed according to the end user request.

Listed Name Instruction Codes:

ODE CLS)	ION Customer Lists	N it the listing from list product extraction. Format in front of listed name. Ex: (OCLS) Jones Mary
LA)	sting As	ition listings in the directory contrary to normal placement rules. Populate behind the listed name. (PLA) Nine Lives

Listed Address

Use this section to enter the listed address if the end user desires a listing different from that provided in the 'End User' section of this form

Listed Address Instruction Code:

ODE AD)	ION ss	N address field to omit addresses from the listing. Populate in lieu of listed address. Ex: (OAD)
-------------------	------------------	---

Yellow Page Heading Code

Identifies the Yellow Page heading for the business listing. For business lines, one listing in the Yellow Pages is available at no charge for each end user account. The listing may be placed in the Yellow Pages under an approved heading that is appropriate for the business (i.e., Restaurants, Beauty Salons, etc.). Requests for business listings under more than one heading are considered directory advertising, and must be negotiated by the end user with a BellSouth Advertising and Publishing (BAPCO) Sales Representative. A Yellow Page Heading Code consists of seven (7) alphanumeric characters. A complete list of Yellow Page Heading Codes can be requested from BAPCO (see Directory Section of this guide).

SIC - Standard Industry Code

The SIC (Standard Industry Code) should be provided. A SIC code is a four (4) character numeric code. These codes are associated with specific Yellow Page Heading Codes and are provided by BAPCO.

A SIC manual is also published by the United States Office of Management and Budget and may be purchased through NTIS.

**National Technical Information Service
5285 Port Royal Road
Springfield, Virginia 22161
703-487-4650**

Foreign/Secondary Directory Name

The listing will be entered in the appropriate directory based on the main account telephone number. If the end user desires the listing to appear in additional directories (or a different directory), enter the community name for the directory. There is a charge for foreign listings.

The name of the directory should be shown preceded by (F) for Foreign or (S) for Secondary.

EXAMPLE: (F) Nashville, TN
(S) Franklin, TN

USOCs AND FIELD IDENTIFIERS (FIDS)

Description

This section contains specific Field Identifiers (FIDs) and information pertaining to Uniform Service Order Codes (USOCs) which may be needed when adding features on the Resale Service or Port Service forms..

Field Identifiers (FID)

FIDs are descriptive codes used to specify instructions or to identify data entries.

FIDs are formatted in the "FEATURE" or "FEATURE DETAIL" field on the Resale Service form and the Port Service form.

Only unique FIDs associated with specific products are provided.

Uniform Service Order Code (USOC)

USOCs are a combination of three or five alphanumeric characters used on service orders and equipment records to identify items of service and equipment within the BellSouth region.

Basic Class of Service USOCs and Product USOCs are shown in the "Feature" field and the Resale Service and the Port Service forms.

Most USOCs can be found in the tariffs. However, Basic Class of Service USOCs are not. This information is being added to the same Web site housing this document:

www.bellsouth.com/interconnection/local/local_index.html.

The USOCs specific to Unbundled Ports are listed below and currently are not found on the Internet.

Classes of Service

UEPRX	Residence Port
UEPBX	Business Port
UEPPX	2 wire PBX Port (Trunk Port with Line Termination)
UEPPX	2 wire Trunk Port DID

Line Assignable USOCs (All Port USOCs are measured services unless otherwise specified. All ULS Port Line Assignable USOCs include Touch-tone and are valid throughout the BellSouth Region.)

UEPRL	Unbundled Residence Line
UEPBL	Unbundled Business Line
UEPP2	Unbundled DID Port (non-measured)
UEPPO	Unbundled PBX Trunk Port (outward only)
UEPPC	Unbundled PBS Trunk Port (2 way)
